SALT LAKE DAILY HERALD. OGDEN CITY, UTAH,

OGDEN DEPARTMENT.

The branch office of THE HERALD is in Reco & Burgitts' iron building on Washington avenue, adjoining Boyle & Co.'s furniture store. Adver-tising rates will be made known upon applica-

tion to the manager.

THE DAILY HERALD is for sale at all news THE DAILY HERALD is for sale at all news stands and by all news boys, and is delivered by carrier in Ogden for 25 cents per week. No papers stopped until arrears are paid. Subscribers failing to receive papers promptly will confer a favor by notifying the circulator at the branch office. Parties desiring papers stopped or addresses changed must notify the branch office. E. A. LITLEFIELD, Manager, J. C. Stover, Clarellator. J. C. BOYLE, Circulator

The City in Brief.

The articles of incorporation of the N. Farr Land, Loan and Trust company were filed with County clerk Hamer yesterday.

At the meeting of the county court yesterday the Lyane road district was abelished and the State-ville district extended to take in the for-former Lyane district. former Lyane district.

The steam fire engine was taken out to the Ogden river bridge yesterday and given another testine. The tests made, as on the previous day, were entirely satisfactory.

Two drunks were attended to in the police court yesterday. One of them paid 89 and was set free, but the other will languish in the bastile for ten long days and nights.

Yesterday morning about 7 o'clock, a large

Yesterday morning about 7 o'clock, a large flock of wild peese were seen flying over the city, going in a southerly direction. Is this an intimation of cold weather to come from the

The several brick-making plants are getting ready for business, but cannot proceed with the work of moulding and burning brick until the weather gets warmer, or until the ground ceases to freeze at night.

Don Maguire is not only a real estate boomer but a mining rustler. Late hast fall he discovered a fine prespect in the mountains northeas of this city, and is now getting ready to explore it. For this purpose he will put a force of men at work and soon demonstrate the value of his find.

find.

The great round house which the Union Parific Railway company is now building southwest of the old passenger depot is approaching completion. It is stated that the Southern Pacific company will creat a similar round house in their ground in the southwestern part of the

city.

The La France steam fire engine company of Elmira, N. Y., have arranged for locating their headquarters in Ogden. Horace Moore, who sold to thus city its new steamer, and who is the general western agent of the La France company, will move his family from Elmira and make this their permanent home.

It is rumored that another printing plant has been shipped to Ogden from Colorado, and that mother evening newspaper will make its appearance within a month. Ogden is a mighty good place for a newspaper to find a grave in thiese it can hang on by the skin of its teeth and eke out a miscrable existence on wind.

It is remarkable the number of store doors.

and eke out a miscrable existence on wind.

It is remarkable, the number of store doors that the murchant's police patrolimen claim to had unlocked at night after the stores have losed and their proprietors have gone home. It has been suggested that if Yale locks with pring catches were used, very few doors would be found unfastened when they ought not to be.

H. E. Cowles, of Lausing, Mich., a friend if Judge H. P. Henderson, has been spending a few days in the junction city, where he has hvested considerable money in real estate. Mr. Dowles, like all others who take time to investigate, is convinced that the future of Ogden is bright and that it will be a large city within a very short time.

The potato crop was a partial fallure in this

The potato crop was a partial failure in this territory last year. Not enough were raised to supply the home demand. In consequence the prices have ruled very high, and now it has been found necessary to ship in the tubers from the east. Of course, the quality is very inferior compared with potatoes raised in this and adjoining states and territories.

adjoining states and territories.

It is learned from an authoritative source that by an arrangement with the Ogden Union Depot company the trains of the Pacific Short Line will run into the Ogden Union passenger station. The freight trains will pass through the yards and over the tracks of the above company to their own freight depot, which is to be located in the northern part of the city.

There should be at least eight trains daily.

iocated in the northern part of the city.

There should be at least eight trains daily sach way between Orden and Sait Lake when the Union Pacific and Rock Island commence cuaning through from Denver to Orden, as they will do about the 1st of July. Then the fare sught to be reduced to 81, in which case there would be three passengers where now there is one. With its fine road bed, heavy steel rails and powerful engines there is no reason why the trip between the two cities should not be made in an hour.

The Monday Marning, a six-column folio, pub-

the trip between the two effics should not be made in an hour.

The Monday Morning, a six-column folio, published by McDantel Brothers, has shied its castor into the journalistic ring. It has started at the foot of the ladder, and appears to have the energy to climb to the topmost round. If it will be fair in dealing with the public as it proprietors promise that it shall be in politics, and not toady to the moneyed powers or officials ciothed with a little brief authority, as a certain newspaper about the size of the Commercial does, it will probably become popular among the people and put some money in the pockets of its owners.

It strikes the average Ogdenite as being the height of absurdity to interfere with the Salvation army cranks, as the Liberal authorities of Sait Lake city are doing. They have their way of worship and other people have theirs, and a large majority of people have theirs, and a large majority of people have epinions contrary to all of them. The Salvationists pound the drums and beat the cymbals, as the people of ancient days were wont to do. Others ring bells, march through the streets with brass bands playing, to plant some human who has gone the way of all flesh, and there are people who hear

Sait Lake city are doing. They have their way of worship and other people have theirs, and a large majority of people have opinions contrary to all of them. The Salvationists pound the drums and beat the cymbals, as the people of ancient days were wont to do. Others ring bells, march through the streets with brass bunds playing, to plant some human who has gone the way of all fiesh, and there are people who hear such noises and look upon such displays as entirely out of place.

way of all liesh, and there are people who hear such noises and look upon such displays as entirely out of place.

There is a great deal of complaint of the Utah Central, or Utah branch of the Union Pacific, which leaves the main line at Ogden and runs down to Sait Lake city. The claim is made that it never makes schedule time, and that waits and delays at Ogden, Sait Lake and intermediate stations are everyday occurrences. This may all be true, but there is a remedy for travelers: they have a choice of lines over which to ride. The Rio Grande Western with its new equipment of rails and rolling stock is in every respect superior to the other line with its worn out rails and antiquated engines and cars.
